

OCEAN PLASTIC INTERTRADE CO., LTD.

PLASTIC ROTATIONAL

MOLDING MANUFACTURING

COMPANY PROFILE

OCEAN PLASTIC INTERTRADE CO., LTD.

WE'RE OCEAN PLASTIC INTERTRADE

Ocean Plastic Intertrade (OPI) is a large scale roto-molded manufacturer based in Thailand. We have an unmatched production power with two main facilities in Thailand, and have the ability to deliver to our customers the highest quality product in the shortest amount of time. While we are the expert in OEM plastic production, we also offer an array of generic branded products that you can select from for the beginning stages your business's growth.

For the past two decades, we've exported all types of products to countries and regions including: Australia, Germany, UAE, South Africa, India, Pakistan, United States, and more. If you choose to partner with us, rest assured the process will be the most seamless collaborative experience you have had with a manufacturer.

Our presense in ASEAN and elsewhere is very strong from our continuous collaborations with customers in the region. Our expertise in producing high quality products at a reasonable price has earned us the leading position in exporting commercial coolers to neighboring countries.

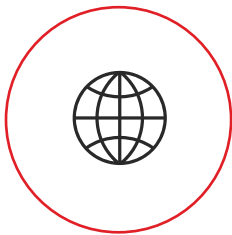

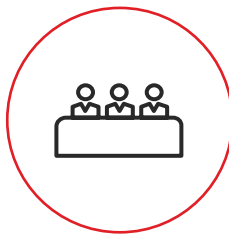

OCEAN PLASTIC INTERTRADE CO., LTD.

OUR VISION AND MISSION

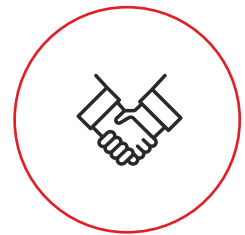

We strive to provide our customers with the best quality products at a competitive price, with a mind towards sustainability. Through producing reusable and durable plastic products with a long life span, we help reduce the use of the world's finite resources.

To meet the standards of our clients worldwide.

To proudly represent and promote Thailand as the world's leading plastic manufacturers.

To be known as an organization with good corporate governance, integrity, and accountability to all.

Goal: To reach USD 180 million in annual revenue by 2025. We have put in place a strategic plan that allows us access to markets in countries that have yet been open to roto-molded products. With big opportunities comes big challenges. This goal serves as the stepping stone for our ultimate goal to become the largest roto-molder on the globe.

WE GO **BIG.**

**BIGGER CAPABILITY,
BIGGER POSSIBILITIES.**

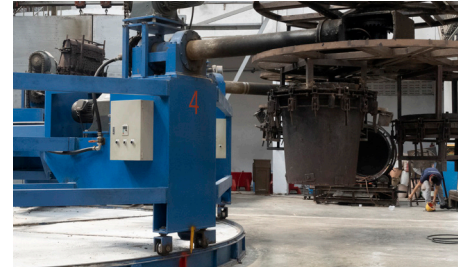

OUR SERVICES

We work closely with our customers, employees, and strategic partners to ensure seamless production and delivery. We are a one-stop service with top-notch quality you can trust. OPI has successfully branched out into the production and marketing of a wide range of innovative products, taking advantage of the expertise and experience we built up through our primary plastic ice box manufacturing business.

The extensive use of modern Rotational Molding technology in our manufacturing process makes it possible for our production line to be more versatile, cost-effective, and efficient.

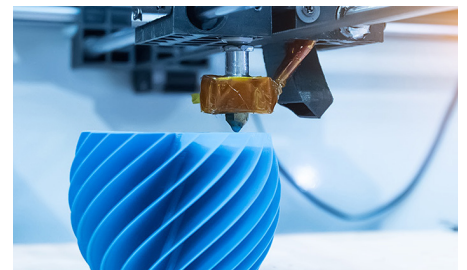

Our attention to strict quality controls and production processes is always evident in our products that exceed customer expectations.

ROTOMOLDING PLASTIC PROCESS

Roto-molding is a process for molding many types of hollow-centered items made out of plastic. The process involves a heated hollow mold which is filled. Then the machine slowly rotate causing the softened plastic to disperse and stick to the walls of the mold. In order to maintain an even thickness throughout the part, the mold continues to rotate at all times during the heating phase and to avoid sagging or deformation during the cooling phase.

PRODUCT DESIGN & ENGINEERING

Our knowledgeable engineering team provides design assistance, project and production management and product review services to ensure your products meet or exceed expectations from start to finish.

MOLD MAKING

The most important thing to consider with all types of molding is the quality of the mold. There is no substitute for an excellent mold. A Production rotational molder can advise you on the type of mold best for your application, and the plastic material most suitable for your product.

MANUFACTURING AND SOURCING

We can help your company source the highest quality products from various countries to help you find the most suitable material at the most cost-effective system.

ASSEMBLY

Most products require assembly, graphics, finishing, and structural enhancements. These are often easier and more cost effective to have us complete that work for you. Assembly work can include adding wheels, fasteners, hinges, closures, handles or printed pattern. Our team could then send you the finished products that is ready to be used without worrying about the assembly process

QUALITY CONTROL & STORAGE

We can help your company source the highest quality products from various countries to help you find the most suitable material at the most cost-effective system.

SHIPPING

We have close ties with shipping companies and we are equipped with the experience of handling customers' shipping while offering very competitive freight rates.

MOLD MAINTENANCE

Ocean Plastic Intertrade provides maintenance and tool repair to ensure your molds are always production ready and running efficiently.

OUR PRODUCTS

Rotomolding is used to make countless products and parts.
These are some examples of the industries we served.

COMMERCIAL USES

Bouy / Block Ice Cover /
Ice Cream Boxes / Newspaper Raks
Trash Bins

CONSTRUCTIONS

Grease Trap / Road Barrier
Water Tank / Self Dumping Hopper

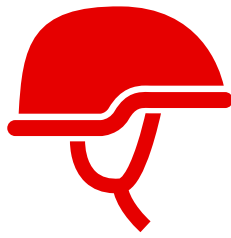

COOLERS

CL / OPI (High Legs), OPI (No legs)
PL / SL / PC / Barrel
Basket

FOOD AND BEVERAGE

Oxygen Tank

MILITARY

Storage Boxes / Bear Storage Boxes

MEDICAL

Medical Stretcher

OUTDOOR

Flower Pot / Garden Edging
Kayak / Boats / Paddle Boats

PLAYGROUND

Playground set / Component
Toy / Outdoor Fitness / Equipment
Rubber tiles

OTHER

Audio Box / Chair / Blower
Easy Float / Exhibition Cases
Thai Traditional Hat
